

# FOR LIFE BIODYNAMIC N

*A revolutionary new approach  
to nitrogen fixation technology.*

## AVAILABLE PACKAGING:

100g, 1kg, 10kg, 25kg

FIXES UP TO  
**80N/HA\***  
OVER AN 8  
WEEK TIME  
FRAME

### PRODUCT INGREDIENTS:

Contains free-living nitrogen fixers with applied EL-I Tech™ (patent pending)

### PRODUCT METHODOLOGY:

EL-I Tech™ harnesses the energy production capability of photosynthetic organisms for Nitrogen fixation independently from the plant

### APPLICATION RATES:

Apply 100 gram per ha water soluble powder from once per season to once every 8 weeks depending on nitrogen need.

### DIRECTIONS FOR USE:

- ✓ 100l water for in-furrow applications
- ✓ 400l water for bulk applications
- ✓ Or as a wet seed coat on 1ha equivalent seed
- ✓ Can be applied through irrigation and fertigation systems
- ✓ All for life biodynamic products can be used and mixed together
- ✗ Do not apply with any biocides

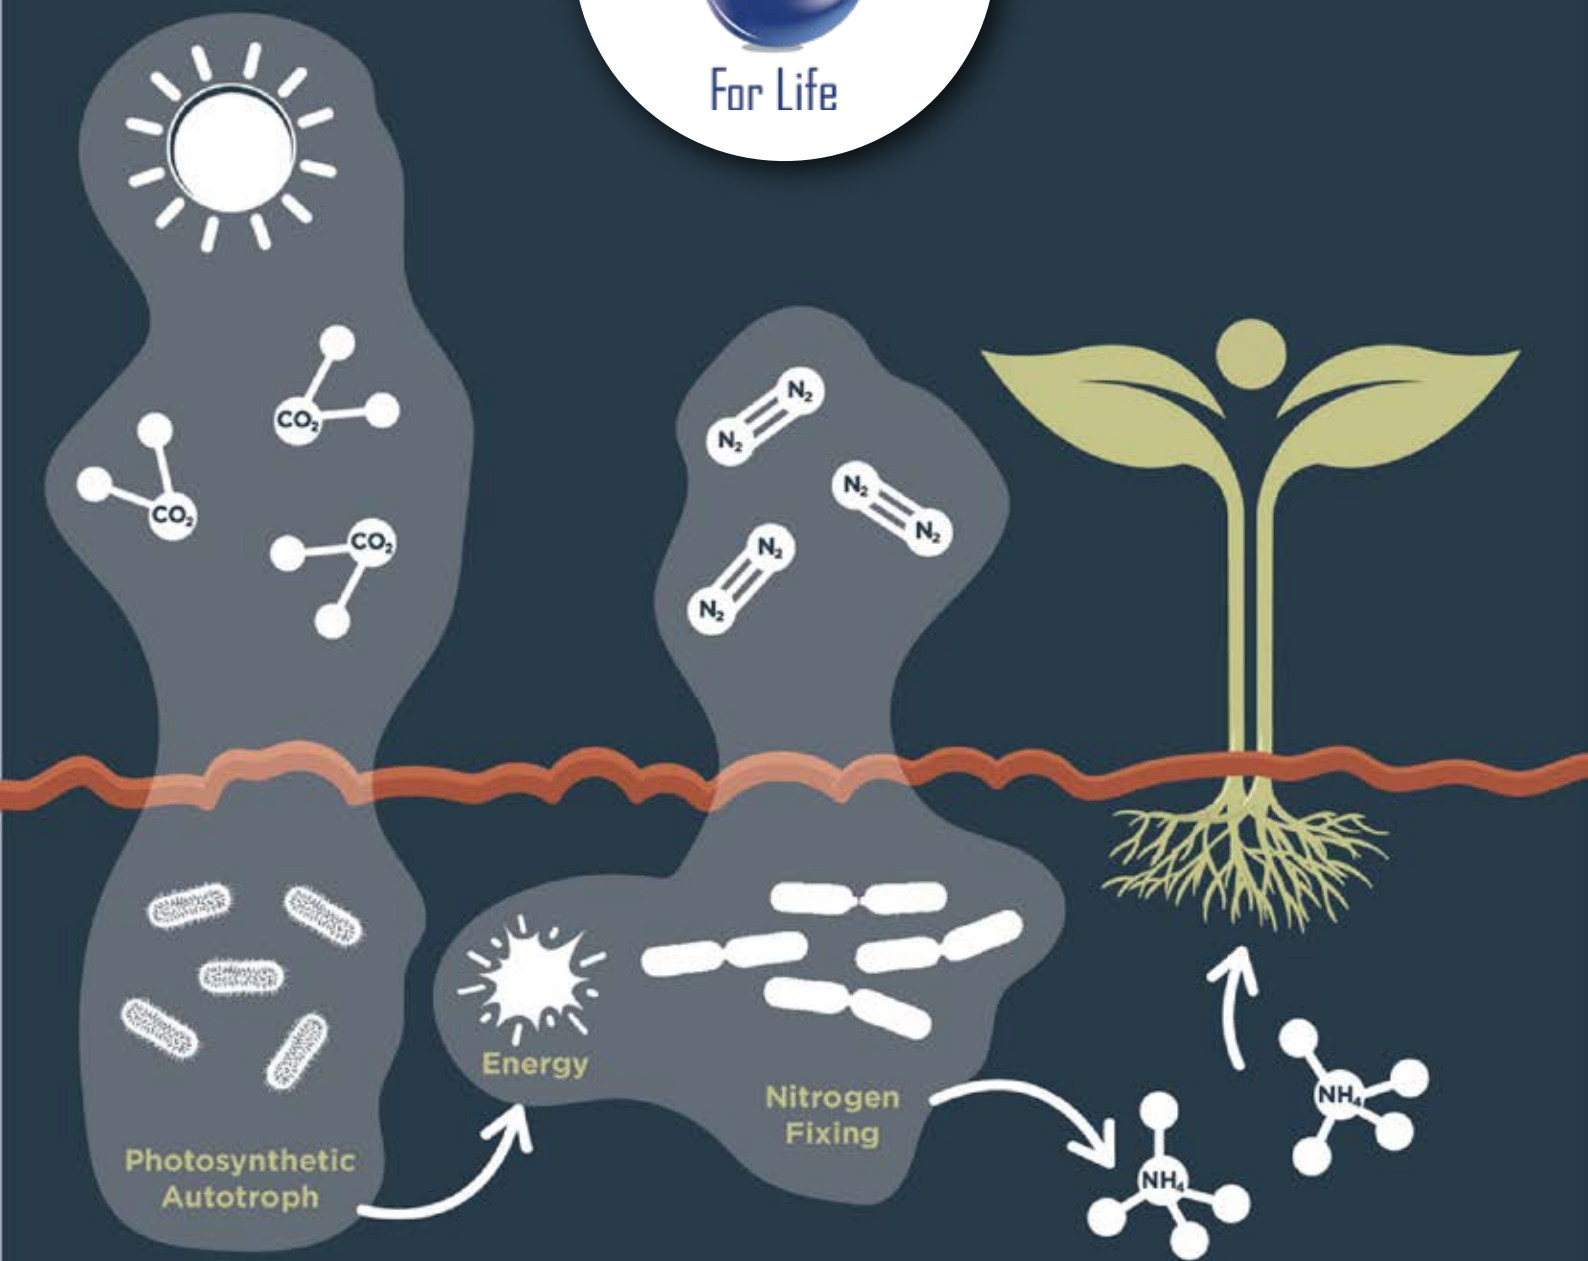

\*comparatively determined to urea and LAN

OPTIMUM HOLDINGS
